

New Year Reception and Progressive Yearbook Launch 2024

FEPS headquarters, January 24th, 17:30 – 19:15

[Registration only](#)

The Progressive Yearbook (PYB) was published for the first time in [2019-20](#), and is an important innovation, especially as part of the Progressive Publication family. This event is dedicated to the **launch of the fifth edition of the PYB**.

With the mission of bringing forward analysis of the key political developments of the year, the Progressive Yearbook focuses on transversal European issues that have left a mark on 2023. It brings insightful future-looking analysis and symbolises FEPS readiness to put it into perspective.
