

Governing the global just transition: implementing COP30 outcomes and more through EU-Africa relations

25 February 2026

Online Seminar

Venue: ZOOM ([Link to register](#))

This online seminar organised by **FEPS**, in collaboration with the **Pan African Climate Justice Alliance (PACJA)**, will discuss the role of the EU in supporting a just transition from fossil fuels to clean energy in Africa and the desires and aspirations of African countries in this vital process. To this aim, we will bring together diverse stakeholders, with and without expertise on the topic at hand, for a rich and open exchange. Outcomes and key takeaways from the discussion, **subject to the Chatham House rule**, will be synthesised in an upcoming FEPS Policy Brief.

The presentations and following discussion will reflect on the outcomes of COP30 while looking forward to COP31 and, especially, COP32 to be hosted by Ethiopia, while also integrating the implementation agenda of two recent summits of direct relevance: the 2nd Africa Climate Summit and the 7th EU-Africa Heads of State Summit.

PROGRAMME

10:00 – 10:05 **Welcome and quick introduction**

by Chloé Deffet, climate policy analyst at FEPS

10:05 – 10:35 **Presentation of the FEPS policy brief “[Governing the global just transition from fossil fuels to clean energy. Litmus tests and proposals for COP30](#)”, with a specific focus on EU-Africa relations**

by the author Celine Charveriat, Director of Pro(to)topia

10:35 – 11:00 **Perspectives from African civil society: What does it mean for EU-Africa relations?**

by the Pan African Climate Justice Alliance (PACJA)

11:00 – 11:50 **Open discussion with all participants**

11:50 – 12:00 **Final remarks and conclusion**
